

Water and sewage leakage relief application

Water notice number:

Council of the City of Gold Coast PO Box 5042 GCMC Qld 9729 P 1300 GOLDCOAST E mail@goldcoast.qld.gov.au

W cityofgoldcoast.com.au

This is an application to reduce the water consumption charges resulting from a concealed leak. The City may, at its absolute discretion, provide a financial adjustment to the water rate notice in accordance with the City of Gold Coast's Water and Sewage Leakage Relief Policy. The leak must have been repaired by a licensed plumber within one (1) month of detection or receipt of notification from the City that a leak may exist, whichever is sooner. The application must be made within one (1) billing period from the issue of a water account that includes consumption charges as a result of the leak. For a full list of conditions please refer to the policy visit cityofgoldcoast.com.au/waterleaks. Applicant details Title	Water notice number:

Important information regarding your water leakage relief application

A concealed leak is water escaping on the customer's side of the water meter from the property's <u>main internal water pipe</u> supplying water to the property.

Relief <u>WILL NOT</u> be considered for water loss or leakage that occurred within a dwelling or building on the property or leaks occurring in a water fitting or appliance including toilets, taps, hot water systems, pools, irrigation and tanks.

Applications <u>MUST</u> be accompanied by a licensed plumber's invoice as proof that the leak has been detected and repaired. Leaks not repaired by a licensed plumber will not be eligible.

This application will be assessed in accordance with the City of Gold Coast's Water and Sewage Leakage Relief Policy (further conditions apply). This policy is available on our website at cityofgoldcoast.com.au.

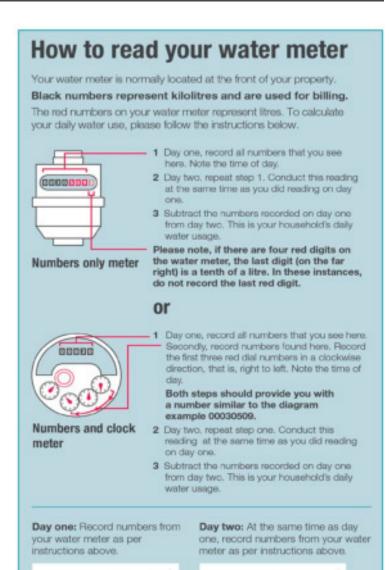

You may wish to note that the leaks repaired in the main internal water pipe may be an indication that the age of the pipe and/or the material, or work practice, used during installation are such that further leaks are likely to occur.

How to check for leaks

The best way to check for leaks, especially a concealed leak, is to regularly read your meter to detect any unusual variation in consumption between readings. See information below on how to locate your water meter.

How to locate your water meter

The location and type of water meter differs across the city. Most water meters are above, at, or below ground level with a plastic or metal lid marked 'water meter'. Your water meter is usually located towards the front of your property, near either the left or right boundary.

Subtract the number found on day one from the number found on day two.

To watch a short video on how to read your water meter and check for leaks

This is your household's daily

water usage.

Collection Notice

Council of the City of Gold Coast (Council) is collecting your personal information in order to provide the services requested, perform associated Council functions and services, and to update and maintain Council's customer information records. Your information is handled in accordance with the Information Privacy Act (Qld) 2009 and may only be accessed by Councillors, Council employees and authorised contractors. Unless authorised or required by law, we will not provide your personal information to any other person or agency. For further information go to

Council may also use your personal information in order to contact you to provide you with information regarding Council functions and services. If you do not wish to receive such information please opt out using the unsubscribe link in the communication material sent to you.
